Immediately following the networking lunch, workforce recruitment and retention expert and author of "Put People First", [Kathleen Quinn Votaw](#) CEO of Talent Trust, will offer invaluable advice on how to find and keep your most valuable asset-your people.

WIP DISC Leadership Training

Now that summer is nearly over and we shift into the fall season, what better time to reset for the upcoming heating season and to engage your team in a Leadership Training session?

Our **DISC On the Road** leadership training is a highly effective and valuable system of human behavior management and is a powerful tool to help managers and their direct reports learn to better understand themselves and achieve optimal performance.

Three different models are available:

- Everyday Workplace
- Management
- Sales

The sessions are conducted by one or more of our certified trainers and can be done virtually or on site.

DISC trainings are also available at state and regional association meetings through coordination with your state executive and WIP.

If you are interested in setting up a session or would like more information, email us at wip@npga.org.

WINLPG 2022 Woman and Young Woman of the Year

The [Women in LPG \(WINLPG\)](#) of which WIP is a national chapter of has announced the application process for the awards is now open.

These prestigious awards recognize women who have distinguished themselves within the sector and young women who have joined the industry with a commitment to a long-term career.

We encourage you to either nominate yourself or nominate a colleague who you feel deserves this accolade. Winners will be announced during LPG Week.
